Interests

I'm interested to solving different types of problems, creating different user interactive websites and playing physical games in my free time

- Participated in various school projects and extracurricular activities.
- Gained basic proficiency in computer skills and technology usage.
- Prepared for higher secondary education with a solid understanding of fundamental concepts.

Projects

- **Responsive Portfolio**

Developed a fully responsive portfolio website using HTML, CSS, and JavaScript, optimized for mobile, tablet, and desktop devices. Implemented modern UI/UX design, smooth navigation, and project showcase sections to present technical work effectively.

- **Analytics Dashboard**

Built an interactive analytics dashboard to visualize key metrics using charts, and dynamic UI components.

Designed a responsive layout and structures data display to improve readability and user interaction.

- **Responsive Image Gallery**

Created a responsive image gallery using HTML, CSS Grid/Flexbox, and JavaScript with organized layout and image preview functionality.

Optimized image loading and layout performance for better user experience across devices.

- **Web Calculator Application**

Developed a browser-based calculator supporting basic arithmetic operations using JavaScript logic. Implemented a simple and intuitive user interface with accurate calculation handling.
